

A PURPOSE BUILT FOOD & DRINK STUDIO KITCHEN

ABOUT

The LUX Food & Drink Studio is a purpose-built photography, video and recipe development kitchen located in Leith, Edinburgh.

A neutral and flexible space, it's designed with stylists, photographers and chefs in mind.

Ready for action, the fully-equipped kitchen also comes with cookware, an extensive selection of props, backdrops and work surfaces.

As well as the main studio, there is a spacious flexible working space upstairs. This includes an additional kitchen area which is ideal for filming and content production requirements.

"The Studio Kitchen is a great working space, with a flexible layout for both filming and photography. Easy to access, it's really well set up with quality kitchen equipment and props. Highly recommended!"

GARY MACLEAN, SCOTLAND'S NATIONAL CHEF

IN-HOUSE CREATIVE TEAM

LUX's experienced in-house creative team can provide both pre-shoot and hands-on support in art direction, food preparation, food styling and recipe and drinks development.
